WHALING MATTERS.—The following extract, is in the New Bedford correspondence of the Boston or antile Reporter, of June 27th: The insurance companies have met with heavy ses the past year. While many splendid cargoes se been taken from the Arctic Ocean and Ochotsk the amount of property destroyed has been use. In order to inform myself as to the actual ant paid by the several companies here the past fa Epon the statement of facts. There are four the sant New Bedford; the losses of one, the omit, it having been in operation out paid by the New Bedford Insurance Comes for the year ending May 31, 1857: Mounal Marine, Commercial Marine, Union Mutuel,

The foregoing amount has been paid principally on this sent that the sum paid falls heavily on the whaling enterprise is attended with great losses

ssful voyage that has been brought home this have read this notice had better turn to Cook's having taken 137 barrels of sperm oil, 3351 of Voyages and ask if America has made as great proand 49,000 lbs. of bone. The proceeds gress since the Revolution as the Sandwich Islands ted to SIIS,000. After paying the officers have in less than half that time. - Worcester Trans. ew, whose lays ordinarily take one third of the int, \$76,000 were left to be divided among the e owners. The ship was absent two years half. Such voyages are exceeding rare. But sets to this, vessels have returned this year losses reach \$20,000 and \$25,000 each.

DEPRESSION IN THE FREIGHT TRADE CON-.- It is said that nine out of ten of the London iverpool packets which have been sailing from York during the last four or five months have from \$3,000 to \$8,000 per trip, and if there be speedy improvement the entire carrying trade en this country and Great Britain will be monized by the rapidly increasing steam lines. The v York correspondent of the Philadelphia Inquirer, aking of the inactivity of California freights, says: Three of the largest firms in the trade, two of m had, at one time, amassed handsome fortunes, have recently been forced to succumb to the pressure of the times. I allude to Sutton & Co., who have since settled with their creditorsby paying a small per centage—Bingham & Reynolds, and W. C. Annan Co. The joint liabilities of these firms could not have been much below \$600,000 or \$800,000. Several other parties who were pioneers in the California trade managed to get out of the business within past eighteen months, just in time to save themlves from insorvency. One of them (Jas. Smith & m) has just informed me that during the last year were in the trade their loss ched \$40,000, but that they managed to save so using wherewith to "rock gently the cradle of dech ing life,"

"During the week there has been quite a large

siness in sugar freights, 3,500 hhds. Cuba having een taken at 10@. 17s. 6d. to London; 17s. 6d. to All of which will be offered for sale at the lowest market rates. irerpool, and 20s. to Bremen by steamer. There has also been some 30,000 a 40,000 bushels of grain sken to Liverpool at 21d. a 21d. in bulk and bags, which is equivalent to buying ballast."

SANDWICH ISLANDS .- We have received the past week the usual file of our spirited contemporary the Pacific Advertiser from Honolulu. We wish every friend of missions could examine the paper, that they might see what a lately-heathen people are doing. It is true that with the advantages of Christianity, the vices of civilization have crept in. But the latter is exceptional, and the former is the rule. One will die out as the other improves the nation. Petty-thieving, garroting; meetings of the Hawaiian Flour Company, balls, putts, and other home-like matter deversify its pages. One of the most interesting in its columns is an account of the recent page of the recent page in its columns is an account of the recent page of the an account of the reception of the Missionary Packet

A crowd of he thousand spectators assembled at the wharves to witness the presentation of a flag, where the usual amount of speaking and singing original hymns Stiffed to the transmission of Christianized Yenkee influence upon the isles of the Pacific isles of the Pacific.

But while religion, comperce and a daily press are testifying to the nationality of those islands at their own home, science and literature are telling the same whaling enterprise is attended with great losses well as profits.

In former years a cargo of sperm oil largely eded in value that of whale. But the rise in of the latter, with whalebone, add largely to rofit of a "right whaler." The ship Young or (new) arrived here some two weeks since a full cargo of sperm oil (1700 barrels,) but in sequence of the heavy cost of the ship and outfits great lays, together with other expenses that the owners.
